

Employee Designation of Physician

The California Labor Code grants an employee who has sustained an occupational injury or illness the right to medical care. Labor Code Section 4600 grants the employee the right to be treated by a "personal physician" if the physician is designated prior to the injury or illness. A personal physician must meet all of the following conditions:

1. The physician is the employee's regular physician licensed as an M.D. or D.O.
2. The physician is the employee's primary care physician and has previously directed the medical treatment of the employee, and who retains the employee's medical record, including the employee's medical history. The physician must be a member of the employee's health plan.

If you are injured on the job and go to a physician other than the physician designated on this form, you may be responsible for the cost of treatment. You are required to promptly notify your supervisor of a work-related injury/illness. If you have any questions please call 664-2664. You may fax a completed form to 664-4049. Individuals in need of a telecommunications relay service may contact the California Relay Service at (877) 735-2929 TTY. <http://www.sonoma.edu/hr/payroll/workers-compensation/>
