

OPEN ENROLLMENT 2022

SEPTEMBER 19, 2022 THROUGH OCTOBER 14, 2022

Open Enrollment is your opportunity each year to review your current benefit plan selections to ensure they continue to meet your personal and family needs. During this time, you can:

- Enroll in a benefit plan
- Change or add to your benefit plans
- Add or remove eligible family members
- Elect to decline or cancel coverage
- Enroll/Re-enroll in annual Health Care or Dependent Care reimbursement accounts (HCRA/DCRA)
- Update or enroll in voluntary benefit plans
- Update your beneficiaries and ensure your personal information is up to date
- If you have no changes to your benefits, your plans will automatically renew for the upcoming plan year (this does not apply to HCRA/DCRA)

Visit the **Open Enrollment website** for all the latest updates, resources and information. Benefits will become effective January 1, 2023.

Your health benefit is provided in partnership with the California Public Employees' Retirement System (CalPERS). Open Enrollment including health plans are available on the CalPERS website located at www.calpers.ca.gov.
